In re Application of: O'Brien et al.
Application No.: 10542-805
Filed: 09/19/2003
For: High Temperature Shift Catalysts Prepared With A High Purity Iron Precursor

The owner, Sud-Chemie Inc., of 100 percent interest in the instant application hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application which would extend beyond the expiration date of the full statutory term prior patent No. 10349-939, as the term of said prior patent is defined in 35 U.S.C. 154 and 173, and as the term of said prior patent is presently shortened by any terminal disclaimer. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.
